

Duck's Dockside Bar & Grill

1090 Shady Cove Rd E.
Haines City, FL 33844
(863)353-5295

Website

General information regarding your website and your domain.

Last updated on May 1, 2022 by Yves Hoebeke

A. Domain name provider:

GoDaddy is the domain name registrar.

Since the internet is a worldwide network, registrars such as GoDaddy manage the names administration and make them accessible to the public and facilitates security and the domain name servers.

Access: <https://godaddy.com>

B. Hosting services:

Digital Ocean is the server space provider.

Hosting services allow access to servers (computers on the internet) where your actual web software and data is located.

The provide an IP addresss and DNS services that allow this IP address to be referenced by its domain name from above mentioned registrar (GoDaddy).

Access: <https://digitalocean.com>

C. Software Repository:

The source of the web page software is stored at GitHub.

This depository keeps track of all changes and additions performed on it.

Access: <https://github.com/yveshoebeke/Duckysdockside.git>

D. Author:

Yves Hoebeke is the author of the software.

Access:
